Speedex Future

-Protein complementary feed

Speedex Future is a balanced protein-rich feed for young horses, broodmares, and performance horses. It also suits horses on low-protein forage.

Protein comes from potato protein, rapeseed, linseed meal, and wheat bran, with added lysine and methionine.

Speedex Future contains live yeast Yea-Sacc®, Bio-Mos® and Mycosorb A+® to support gut health and manage toxin control. Bioplex® chelates provide trace elements in a natural, well-absorbed form.
