

Speedex Future

Speedex Future is a balanced complementary protein feed for young, growing horses and for pregnant and lactating mares and for performance horses in intensive training. It's also suitable for all horses as a complement to forage with low protein content. The protein in Speedex Future comes from non-gmo soybean meal. Other protein sources are rapeseed meal, linseed meal and wheat bran. The amino acids lysine and methionine have been added to the feed.
